**KOBELCO Construction Machinery USA Designates
Anderson Equipment Company as West Virginia Dealer**

Houston, TX – KOBELCO Construction Machinery USA continues its forward momentum in the relaunch of their excavator line by expanding their dealership representation to include Anderson Equipment Company of Charleston and Fairmont, WV. Anderson Equipment Company will represent KOBELCO’s full line of excavators in West Virginia.

“We have chosen to represent the KOBELCO brand because the company has made a huge commitment to the North American market by providing high quality machines at a competitive price to our customers,” states Todd Mortimer, General Manager of Anderson Equipment Company. “We are confident in KOBELCO’s goal to become a market leader and are excited to contribute to the re-establishment of the brand.”

KOBELCO has long been known for its world class line of excavators in the 3,000 lb. to 180,000 lb. classes. By focusing on a single line of equipment and dedicating its research and development dollars to improving and enhancing this singular line, the company has become known as excavator perfectionists, ensuring they deliver excavators that can withstand the day-to-day rigors of demanding jobsites, while providing operators with all the production and comfort features required for a profitable days work.

The staff of Anderson Equipment Company will be working closely with KOBELCO to gain the required sales and product support training to deliver on KOBELCO’s promise of customer satisfaction.

Anderson Equipment Company will provide professional sales and service support on all KOBELCO excavators from their Charleston and Fairmont, WV locations.

KOBELCO Construction Machinery USA is dedicated to producing a full range of crawler excavators for the rental, landscape, construction, aggregate, roadbuilding, material handling, site preparation, recycling and ancillary markets, including zero tail swing, standard, long-reach and compact models. KOBELCO machines are well-known for their advanced technologies including an innovative noise and dust reduction system, advanced hydraulic circuitry for reduction of pressure loss and superior fuel efficiency.
