**KOBELCO Construction Machinery USA Names  
General Equipment & Supplies as Dealer in South Dakota and Minnesota**

Houston, TX – KOBELCO Construction Machinery USA continues its forward momentum in the relaunch of its excavator line by expanding their dealership representation to include General Equipment & Supplies, Inc. General Equipment & Supplies will represent KOBELCO’s full line of excavators in South Dakota and western Minnesota.

“It is our mission to offer our customers the finest quality products in the industry and the KOBELCO line is a perfect fit,” states Don Shilling, President of General Equipment & Supplies, Inc. “Although we are a new dealer, many of our personnel have years of experience with KOBELCO equipment and are excited to get back to selling and servicing such an exceptional brand.”

KOBELCO has long been recognized for its world class line of excavators in the 3,000 lb. to 180,000 lb. classes. By focusing on a single line of equipment and dedicating its research and development dollars to improving and enhancing this singular line, the company has become known as excavator perfectionists, ensuring they deliver excavators that can withstand the day-to-day rigors of demanding jobsites, while providing operators with all the production and comfort features required for a profitable days work.

The staff of General Equipment & Supplies will be working closely with KOBELCO to gain the required sales and product support training to deliver on KOBELCO’s promise of customer satisfaction.

General Equipment & Supplies will provide professional sales and service support on all KOBELCO excavators from their Sioux Falls, SD location.

KOBELCO Construction Machinery USA is dedicated to producing a full range of crawler excavators for the rental, landscape, construction, aggregate, roadbuilding, material handling, site preparation, recycling and ancillary markets, including zero tail swing, standard, long-reach and compact models. KOBELCO machines are well-known for their advanced technologies including an innovative noise and dust reduction system, advanced hydraulic circuitry for reduction of pressure loss and superior fuel efficiency.
