**KOBELCO Construction Machinery USA Designates  
Puerto Rico Wire Group as Dealer in Puerto Rico**

Houston, TX – KOBELCO Construction Machinery USA continues its forward momentum in the relaunch of its excavator line by expanding their dealership representation to include Puerto Rico Wire Group. Puerto Rico Wire Group will represent KOBELCO’s full line of excavators in Puerto Rico.

“When our customers come to us, they’re looking for high quality, robust equipment that will work as hard as they do,” states Rafael Viera, Bayamón Branch Manager of Puerto Rico Wire Group. “KOBELCO excavators are the ideal machine for that. We are proud to offer KOBELCO products to our loyal customers and look forward to continued success in our partnership with the company.”

KOBELCO has long been recognized for its world class line of excavators in the 3,000 lb. to 180,000 lb. classes. By focusing on a single line of equipment and dedicating its research and development dollars to improving and enhancing this singular line, the company has become known as excavator perfectionists, ensuring they deliver excavators that can withstand the day-to-day rigors of demanding jobsites, while providing operators with all the production and comfort features required for a profitable days work.

The staff of Puerto Rico Wire Group will be working closely with KOBELCO to gain the required sales and product support training to deliver on KOBELCO’s promise of customer satisfaction. Puerto Rico Wire Group will provide professional sales and service support on all KOBELCO excavators from their San Juan, PR location.

KOBELCO Construction Machinery USA is dedicated to producing a full range of crawler excavators for the rental, landscape, construction, aggregate, roadbuilding, material handling, site preparation, recycling and ancillary markets, including zero tail swing, standard, long-reach and compact models. KOBELCO machines are well-known for their advanced technologies including an innovative noise and dust reduction system, advanced hydraulic circuitry for reduction of pressure loss and superior fuel efficiency.
