**KOBELCO Construction Machinery USA Designates
Denver East Machinery as Dealer in Colorado and Wyoming**

Houston, TX – KOBELCO Construction Machinery USA continues its forward momentum in the relaunch of its excavator line by expanding their dealership representation to include Denver East Machinery. Denver East Machinery will represent KOBELCO’s full line of excavators in eastern Colorado and southwestern Wyoming.

“Denver East Machinery has been serving the Colorado and Wyoming region for over 40 years,” states Todd Filler, General Manager of Denver East Machinery. “We see the quality and dedication delivered in KOBELCO’s line of excavators and adding their product line to our dealership is the next step in our mission to provide this region with the best machinery, parts and service required to complete the job.”

KOBELCO has long been recognized for its world class line of excavators in the 3,000 lb. to 184,000 lb. classes. By focusing on a single line of equipment and dedicating its research and development dollars to improving and enhancing this singular line, the company has become known as excavator perfectionists, ensuring they deliver excavators that can withstand the day-to-day rigors of demanding jobsites, while providing operators with all the production and comfort features required for a profitable days work.

The staff of Denver East Machinery will be working closely with KOBELCO to gain the required sales and product support training to deliver on KOBELCO’s promise of customer satisfaction. Denver

East Machinery will provide professional sales and service support on all KOBELCO excavators from their Aurora, CO location.

KOBELCO Construction Machinery USA is dedicated to producing a full range of crawler excavators for the rental, landscape, construction, aggregate, roadbuilding, material handling, site preparation, recycling and ancillary markets, including zero tail swing, standard, long-reach and compact models. KOBELCO machines are well-known for their advanced technologies including an innovative noise and dust reduction system, advanced hydraulic circuitry for reduction of pressure loss and superior fuel efficiency.
